PROFESSIONAL SUMMARY

Cybersecurity Engineering student with hands-on experience in penetration testing, web application security, cloud computing, and AI-powered security solutions. Skilled in Python, Linux, Burp Suite, Wireshark, Docker, and Google Cloud Platform. Passionate about offensive security, secure software development, and solving real-world cybersecurity challenges through innovative projects and hackathons.

CORE TECHNICAL COMPETENCIES

Cybersecurity – Penetration Testing, Web Application Security, Network Security, Vulnerability Assessment, OWASP Top 10, API Security, Secure Coding

Security Tools – Burp Suite, Wireshark, Nmap, OWASP ZAP, Metasploit, Frida, Apktool, MobSF

Programming & Development – Python, JavaScript, HTML, CSS, SQL, Git, REST APIs, Software Development

Cloud & DevOps – Google Cloud Platform (GCP), Docker, Linux, GitHub, Cloud Fundamentals

Databases – MySQL, SQLite

Design & Productivity – Figma, Adobe Photoshop, UI/UX Design, Technical Documentation

Soft Skills – Problem Solving, Team Leadership, Communication, Analytical Thinking, Collaboration, Adaptability, Continuous Learning

ACADEMICEN PROJECTS

Visitor Management System with QR Authentication

- ➔ Developed a role-based visitor management system with secure authentication and QR code-based access verification.
- ➔ Implemented visitor registration, event approval workflow, and real-time verification using a centralized database.

Logyzer – AI-Powered Security Log Analyzer

- ➔ Built an AI-powered log analysis platform to detect failed logins, suspicious IPs, and security threats.
- ➔ Developed an interactive dashboard for automated risk assessment and security reporting using Python and Streamlit.

NetOracle – AI-Based Network Monitoring System

- ➔ Designed an AI-powered network monitoring platform with real-time telemetry and fault prediction.
- ➔ Simulated SD-WAN/MPLS environments using Docker, Containerlab, and FRRouting for network analysis.

Medi AI – Intelligent Medical Document Assistant

- ➔ Developed an AI-powered application for medical document processing using OCR and NLP techniques.
- ➔ Integrated intelligent document search and AI-based question answering for efficient information retrieval.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering (Cyber Security)

J.J. College of Engineering and Technology, Tiruchirappalli

Affiliation: Anna University, Chennai **CGPA: 8.13 | 2028**

Strengths - Technical Curiosity, Strong Problem-Solving, Detail-Oriented, Adaptable, Professional Communication.

LANGUAGES PROFICIENCY & STRENGTHS

Tamil | **English** | **Arabic**

Strengths - Technical Curiosity, Strong Problem-Solving, Detail-Oriented, Adaptable, Professional Communication

INTERNSHIP EXPERIENCE

Frontend Developer & UI/UX Intern — Securix Service (Startup)

Duration: Dec-25 to Feb-26

- ➔ Contributed to the front-end development and UI/UX design cycles for live startup projects.
- ➔ Designed UI wireframes and mockups using Figma, translating prototypes into functional, responsive web pages (HTML/CSS/JS).
- ➔ Enhanced user journeys, navigation, and accessibility, supporting continuous product improvements.
- ➔ Gained experience collaborating in a fast-paced development environment and optimizing interface performance.

HACKTHON COMPETITION EXPERIENCE

Smart India Hackathon (SIH)

- ➔ Developed an innovative solution for a real-world problem statement in a multidisciplinary team environment.
- ➔ Applied software development, problem-solving, and collaboration skills to design and present the proposed solution.

Bharatiya Antariksh Hackathon 2025

- ➔ Designed an innovative solution for a national-level space and technology innovation challenge.
- ➔ Demonstrated technical problem-solving and teamwork in addressing real-world space-related challenges.

PROFESSIONAL DEVELOPMENT

- ➔ Cisco Networking Academy – Introduction to Networks
- ➔ **Google Cloud Associate Cloud Engineer (ACE)** – Currently Learning
- ➔ Google Cloud Skills Boost – Hands-on Cloud Labs and Learning Paths

ACHIEVEMENTS

- ➔ **OWASP Tiruchirappalli Chapter – Volunteer**
  Contributed to cybersecurity awareness programs, technical events, and community-driven security initiatives.
- ➔ **Third Prize – Technothirst'25, A.V.C. College of Engineering**
  Awarded Third Prize in the National Level Technical Symposium for presenting the research paper **"Blood Donation App: An Innovative Solution to Address Blood Shortages."**
- ➔ **National Science Day 2025 – Technical Presentation**
  Recognized for presenting an innovative technical project at J.J. College of Engineering and Technology.
- ➔ **ACM Student Member – J.J. College of Engineering and Technology**
  Active member participating in technical activities, workshops, and professional development programs.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
